

Special Project:

PowerPoint Presentation on a Body System

PowerPoint Presentation

Your presentation should have a slide for each of the following areas about the body system you are assigned. The presentation needs to be 10 to 12 minutes.

- 1.** Name of the body system
- 2.** The purpose of the body systems.
- 3.** The structure and parts of the body system
 - a. List the parts of the body system
 - b. Show the structure of the system.
 - c. Explain the structure and parts of the body system
 - d. Explains how the body system works.
 - e. Explain how the body system works with other systems in the body.
- 4.** The care of the system. What are some personal behaviors you could do to care for the body system?
 - a. Daily activities
 - b. Medical checkups needed.
 - c. Other personal behaviors
 - d. Other information
- 5.** The medical problems, diseases and or disorders that could occur with the body systems.
 - a. What are the medical problems, diseases and or disorders that could occur?
 - b. What can you do to help correct the medical problems, diseases and or disorders?
- 6.** Injuries
 - a. How do these injuries occur?
 - b. What personal behaviors can you do to help reduce the possibilities of these injuries?
- 7.** How does this system work with other body systems?
- 8.** Area of medicine that studies the body systems and/or careers in this field of medicine.
- 9.** Information on personal behavior that affects the body system which is important for teenagers/young adults.
Interesting factors about the body system.

* Group will present the PowerPoint presentation. *

Rough draft and final project will be emailed to Mr. Stanley @ tstanley@kunaschools.org.

Check presentation rubric.
