

Special Project – Body System

There are two components to this project

- **PowerPoint Presentation** - group
- **Research Written Report** - individual

PowerPoint Presentation

PowerPoint - Your team's job is to prepare a presentation to educate your classmates about one of the body systems that makes up the human body. Your presentation must include the following requirements:

- **Power point presentation should be between 10 – 15 minutes.**
- 1. Name of the body system**
 - 2. The purpose of the body systems.**
 - 3. The structure and parts of the body system – (Anatomy and Physiology)**
 - List the parts of the body system
 - Show the structure of the system.
 - Explain the structure and parts of the body system work
 - 4. The care of the system.** What are some personal behaviors you could do to care for the body system?
 - Daily activities
 - Medical check ups needed.
 - Other personal behaviors
 - Other information
 - 5. The medical problems, diseases and or disorders that could occur with the body systems.**
 - What are the medical problems, diseases and or disorders that could occur?
 - What can you do to help correct the medical problems, diseases and or disorders?
 - 6. Injuries**
 - How do these injuries occur?
 - What personal behaviors can you do to help reduce the possibilities of these injuries?
 - 7. Area of medicine that studies the body systems.**
 - 8. Information on personal behavior that affects the body system which is important for teenagers/young adults.**

****Each individual will turn in one written report****

****Each group will turn in one PowerPoint presentation****
